*The Girls of Today
Creating the World of
Tomorrow through
Science, Technology,
and Engineering*

Did you know?

The STEM (Science, Technology, Engineering and Math) workforce is critical to America's future and global competitiveness and right now only 24% of women work in STEM fields.

Our Vision

Our Vision is to provide a supportive and collaborative environment to school age girls to ignite their passion in science and technology.

Let's show our girls that science and technology are exciting fields where they can use their creativity and imagination to impact the world around them. Our programs will inform them, involve them, and inspire them to be empowered women in fields that often do not get a lot of attention from girls. There are endless opportunities for women in these fields and we want to give our girls first-hand experiences in what these opportunities can look like. Will you be a CoolTechGirl?

Join us!

Girls - Explore your passion and learn about fields related to the ones you already love!

- Grades 4 - 8 and 9 - 12
- Learn from women role models in the STEM industries
- Complete special team projects with assistance from mentors
- Attend Career Exploration Sessions, STEM workshops, and Summer Camps
- Connect with internships and job shadow opportunities
- Make lifelong connections and friendships

Parents - CoolTechGirls is for you, too!

- Beyond encouraging your daughter, we want to help you understand the need for women in STEM jobs, and help your daughter make informed decisions about where she wants to go in her career. Sign up on our website to get updates from us.

Collaborators & Volunteers - Helping our girls and making an impact!

- We have partnered with Girl Scouts of America to provide our girls with resources. The City of Dublin, the DEC, Cybervation, and Tempest Networking, are just a few more organizations already behind our effort.
- CoolTechGirls is a volunteer-run group, so there are many opportunities for you to contribute in a meaningful way. Visit our website to find out how!
